THEY WILL STILL MANAGE THE OPERA HOUSE.

THE DIRECTORS GIVE THEM A LEASE OF IT FOR THREE YEARS.

The great question of the next season at the Metropolitan Opera House has at last been settled-settled. that is, as far as the directors will have anything to do with it. They have given Abbey & Grau, who have managed the house this season, a lease of it for three years beginning with the 1st of next October. The terms are somewhat different from those of this year. In fact, this year's arrangement was not a lease at all. Abbey & Grau have simply received the house at the hands of the directors, lighted and heated, for the nights and afternoons of opera and they have also received \$2.000 for each performance of the regular season. If they wanted the house for extra rmances they made a separate arrangement for it, and when they did not want it at all it was left in the hands of the directors for them to do with Now Abbey & Grau as they liked or as they could. are to have absolute control of the house on opera nights and other nights, respecting, of course, rights of the box-holders for the performances of the regular season, and when they have made whatever they can on the opera they will make whatever more

they can on the use or letting of the house. The company will also give them \$2,000 for each regular performance, just as this year. The arrangement was made by the directors at their annual meeting, which was held at the Metropolitan Opera House yesterday afternoon. There were present at the meeting James A. Roosevelt, the Edmund C. Stanton, the secretary; Luther Kountze, the treasurer; William C. Whitney, G. G. Haven, Adrian Iselin, George N. Curtiss, Robert Goelet and George Peabody Wetmore. After the meeting the following official statement was made:

New-York, March 16, 1892. The Board of Directors of the Metropolitan Opera House Company (Limited) met to-day and voted, subject to the proval of the stockholders, to lease the Metropolitan o Messrs. Abbey & Grau for three years

from October 1, 1892.

They also approved a contract with Messrs. Abbey & Grau for giving grand opera for the next three seasons. It is understood that the Messrs. de Resrke, Lussalle and other leading artists will be retained.

There were several other propositions offered to the directors, but that of Messrs. Abbey & Grau was deemed the most desirable and therefore accepted.

the most desirable, and therefore accepted.

A few weeks ago Abbey & Gran tried to secure from the directors a larger guarantee for next season than the \$2,000 a performance which was given this season. This was denied and Abbey & Gran then sent a letter to the directors formally announcing that they would not undertake the management of the house for another season. The present arrangement seems to be a compromise. The sum assured for each

performance by the directors remains the same, \$2,000, but the house is wholly given over to Abbey & Grau, and they will have it at their disposal for such extra nights of opera, concerts or other entertainments as they may wish to give and will have the privilege of letting it to others for concerts, balls and exhibitions, as the directors have done hitherto. Moreover, the assurance that they will have the house for three years will enable them to make longer contracts with artists and to engage them on more advantageous terms The directors, on their part, seem thoroughly tired of the uncertainty of the results of opera seasons which they manage themselves and anxious to get rid of all rish. This year they gave Abbey & Gran a fixed sum their hands of the responsibility of the Now they go further and let the managers take full charge of the affairs of the house. The president of the company, James A. Roosevelt

said last night that the directors were quite satisfied with the results of the present season. They thought that Abbey & Grau had given them excellent opera-The managers, he said, had made the directors a disthat proposition of the nature indicated by the official cement which was made, the directors were satisfied with the proposition and they had accepted it The house had not been let for other purposes than opera, Mr. Roosevelt thought, so much as have been of late, and Abbey & Gran would probably be able to make more of this possibility than the directors had done. He said that Abey & Grau had given the directors to understand that the company to be engaged for next season would be as capable and the style of opera given as good as of this year. Beyond this assurance Abbey & Grau had given no indication of their plans and had made no mention of an intention to vary the class of opera from that of this season, as, for instance, by giving a larger proportion of German works. It was stipulated that they should give sixty-two performances in each regular season.

Mr. Roosevelt said that in receiving all the privileges of the house Abbey & Grau would of course assume all responsibility for its management and conduct. This season Mr. Stanton has been the director of the house, but his duties in that capacity will now naturally fall on Abbey & Grau themselves. Mr. Roosevelt said that the arrangement would probably not after Mr. Stanton's place as secretary of the Board of Directors, but his duties would naturally be different. be able to make more of this possibility than the di-

Directors, but his duties would naturally be different. Other members of the Board of Directors expressed themselves in much the same manner as Mr. Roose velt in regard to their satisfaction with the present The vote to grant the lease was unant

It will be remembered that the conduct of the season just ended was put into the hands of Abbey & Grau a year age as an experiment in the restoration of Italian opera. Up to the middle of the season it seemed to be an undoubted failure. At that time Jean Lassalle arrived and began to gain his place among the most popular singers of the season, Jean and Edouard de Rescke and Mme. Emma Eames being the only others of the members of the company new to this city who had made pronounced successes. Soon after M. Lassolle's arrival "Faust" was given with a cast so excellent that it made a marked success, and it was frequently repeated for the rest of the season. One or two other operas won a coniparative degree of popularity. Abbey & Grau had declined to manage another season, but the opinion rapidly became general that they would reconsider this action and continue their control of the house. In the meantime various propositions had been made by other managers, but none of them pleased the directors so much as that which Abbey & Grau finally presented.

It has been generally believed that If Abbey & Gran should control the house again they would devote some part of the season to German works. The possibilities part of the season to German works. The possibilities have been repeatedly discussed of engaging a company capable of singing either Italian or German opera. The engagement of Anton Sedil to conduct "The Mastersingers" gave color to these theories. This opera was given successfully three times under his leadership. Apart from any speculations about the chances of German works it has been reported on excellent authority that Herr Seidl was to be engaged for next season, though it has not been officially announced. Mr. Abbey is now in Cleveland and Mr. Gran is in Boston, where the company is singing. The measures adopted yesterday still require the sanction of the stockholders, but the gaining of this is only a form.

Cleveland, March 16 (special).—Henry E. Abbey was where Mmc. Bernhardt is performing, upon the sub-ject of his lease of the Metropolitan Opera House. "What do you intend to do with the Metropolitan?

he was asked.

"It is early for us to have made any elaborate or detailed plans," said Mr. Abbey. "All I can say definitely is this: Mr. Grau and I have taken the bouse for three years from October 1 next. tend to give opera in Italian and French, and expect it will be equal to what we have done in the past-better than what we have done if possible. As to what

else we shall do, it is too early to say." "You will not confine yourself solely to opera in Italian and French, then?"

Oh, no; we shall have other attractions. But we have leased the house principally for that. We concluded the contract in New-York yesterday so far as getting the entire assent of the Amusement Committee of the Board of Directors of the house. To-day we received a dispatch that the Board of Directors had accepted; so it is settled. As to the terms, all that I care to say is that we have an absolute lease of the house for three years."

MR. GRAU SAYS "NO GERMAN OPERA."

Poston. March 16 (Special).-Mr. Grau was seen by Tribune correspondent at the office of Mechanics' Hall this evening. He confirmed the report that he had leased the Metropolitan Opera House, and said that he had full control of it for three years. The directors made him an offer, and this helped to induce him to sider his decision to give no more grand opera in New-York City. As to definite plans for the future, Mr. Gran smil-

replied that he did not have any; that the leasing of the Metropolitan had upset his whole programme her. It is settled, however, he says, that he will be grand opera in Italian, French and English II fbody wants to hire the house for German opera he not prepared to object, but no German opera will given under his own managements. THE SECOND "FAUST" READING.

GEORGE RIDDLE CONTINUES HIS COURSE AT THE GARDEN CONCERT HALL.

The second of George Riddle's readings from Bayard Taylor's translation of Goethe's "Faust" was given at the Madison Square Garden Concert Hall

yesterday. Interest in this excellent course is apparently growing. The audience of yesterday was considerably larger than that at the first reading, and the scenes presented brought the hearers deeper into this story and developd more the relations of the characters. To study truly this greatest poem of the German language, to know it and to understand it, is an education in itself, and one which is mosnderful and delightful in the process of its acquist tion. Nothing has done so much to bring this pleasure and profit within the reach of English-speaking people as the translation of Mr. Taylor. Riddle, in his turn, now opens the door of the treasure house to many who have not known before what was to be found in it.

Mr. Riddle yesterday read the scene with Faust, Mephistopheles and the student in Faust's study, the scele in the witch's kitchen, the one in which Faust and Margaret first meet, and the first one in Margaret's chamber. The most striking feature of the afternoon's performance was the sense of realness given to the scene in the witch's kitchen, with th grotesqueness of imagingion in the talk of the apes startling florceness and virulent vituperation o the witch, her fawning and flattery when she recog nizes her master, and the transition to Faust's exalted admiration of the beauty of the vision which i shown him. The other scenes were equally well considered, and in their different ways equally effective. As before, the music of the orchestra under Mr. Cappa added much to the appreciation and enjoyment of all of them. The third reading will be given on Monday afternoon.

RARE METEOROLOGICAL DISPLAY IN ILLINOIS.

Bloomington, Ill., March 16.-A most beautiful con Bisomington, III., March 16.—A most beautiful com-bination of sunders, halos, minbows and cross-bars, was witnessed here yesterday. About 3 o'clock a rainbow-like halo was observed above the sun. Soon two beautiful porallel rainbows of the usual form ap-peared joining the lowest point of the halo. Near the horizon and outside of the outer minhay were two horizon and outside of the outer minbow were two sheets of brill ant prismatic colors. Later on there appeared a "cross-bar," the arc of a great circle, clearly defined in white light, concentric with the halo above the rainbow, and passing through the sun-erossing the two rainbows, there being a mock sun-of intense brillianes at each point of juncture. MR. HILL IN ALABAMA.

HE MAKES AN ADDRESS AT BIRMINGHAM.

STILL SHOUTING FOR THE REPEAL OF REPUBIA-CAN LEGISLATION.

Birmingham, Ala., March 16.-It was 3:40 this morning when the train bearing Senator Hill and his party rolled into the Birmingham station, but a large crowd had already assembled, and the Senator was oudly cheered as he and his party passed to the car riages which conveyed the visitors to the hotels. The streets were crowded when, at 11:30 this forenoon, a committee of nine leading citizens and a delegation of the Irish Club escoried Senator Hill and his party to the Opera House, where the meeting of the day was Colonel Hewitt, the president of the Hill Club of Birmingham, Introduced Mr. Hill as "a partisan Democrat, who believes in what the Mugwumps and he Independents term 'machine politics,' but which neans he believes in an organized Democracy in the inqualified and unwavering support of the nominces of

The Senator began his address by expressing his pleasure at having "the opportunity of visiting this beputiful city" and then launched forth into a long glorification of the Democracy. Some of the things ie said were these:

forgotten the fact that under Democrati You have forgotten the fact that under Democratic rule our flag floated on our commerce in every sea. I alluded the other day in a speech which I had the honor of making on my way here to an address of President Harrison in some town along the ratiroad, in which he lamented the fact that we have lost a very large extenof our foreign commerce and he hoped that the time would ome when we would achieve the victories which we had in the past, when he trusted that we would enter into competition with other countries for he commerce of the world. Permit me to say to him again what I said then. world. Permit me to say to him again with a say that the difficulty with this country is now, and the reason why we don't control the commerce of the world is because of the restrictive, narrow legislation of the Republican party, of which he is the head to-day. (Applause.) Years ago, under Democratic rule, our flag could be seen in every port, upon the ships in every port of the world, and under the narrow policy pursued by our adversaries in the last years we have merchant marine of any account. We can ave it until the barriers which check our commerce shall he removed, until the selfish policy which now actuates Republican leaders shall be changed. (Applause.)

Republican leaders shall be changed. (Applause.)

If I were to describe the one great essential difference between the Democratic party and the Republicar party and of other parties that have preceded the Republican party. I would state it in a word: The Democratic party has always believed, and now believes, in a strict construction of the Pederal Constitution (22-plause., and our oursements have druse), and our opponents have always be-eved in a loose, extraordinary general power or construction. We believe just proceedy what the Constitu-tion says in its letter and its spirit. (Applause.) They claim extraordinary powers under what I am pieced to call the binner power of the Constitution-namely, the gener clause to do everything necessary to promote the public wfore. Whatever is necessary to carry out the specimed power of the Constitution, the General Government has a general power to do: but I protest analyst the undern Republican construction of that clause, which is that, under the theory that they have a right to do whatever is necessary to promote the general welfare, they exceeds the right to promote their own individual welfare and the welfare of private interests. It was the great statemen, Samuel J. Tilder. (theers), who said: "I oppose a general government because it creates an irresponsible power, and an irresponsible power always corrupt. (Appletise.) I oppose centalization cause it is incompatible with civil liberty." (Applause I reiterate to-day those sentiments so well expressed. The bemocratic part; believes that the General Government has no right to use the power of taxation to build up private paterests. (Applicause.) You know what the Democratic doctrine is; it is so plain that every citizen an under stand it; it is a simple creed-not an obligated one. W believe in the rule that the Government has the right t tax the people to raise sufficient money to meet the nece salties of the Government economically administered. (A) plause.) We do not believe that the Government has the ight to use the power of taxation vested in it for the popose of helping one man at the expense of enother, man who says that the Democratic party wants man who says that the penneral party to the lands mis-tear down the custom houses of the lands mis-states our position, and he knows it. Applause. The man who says the hemocratic party proposes a metho-of direct texation for the purpose of supporting the toy exament is masquerading as a hemocrat, but he is not a moerat. (Faint appliance) We believe that I f taxation must be used for pumic and not b

1888, when I was screnaded by the united Democratic clubs of Albany, these words substantially: "Aithough we are defeated it is our duty to hall the flar of rainf eform to the mast and there let it remain until we are retorious. (Loud applause.) I repeat that sentimen-now, and I would not lower an atom the high standing at the party has taken.

What now is the duty of the Democracy! It is to it

What now is the duty of the Democracy! It is to in-stet that the had legislation of the preceding Congress-shall be repealed. It is our duty to insist that the work shall be unifore. Then, my friends, let us been before the people this one grand issue. Let us insist upon it that the laws passed by the late Republican Congress shall be repealed. Let us not be misled by other or minor issues. I have the honor to repeat what I receasily said in the city of Albany at the close of my tembernatorial term: "No small issue, no untimely issue, no new issue, no other issues," and I repeat that sentiment now. Applaised. It is immercissary for me to enter into any Applicates, it is unused to position of the Democratic party on the tariff question. The Democratic party makes no war upon the manufactories, it makes no war open the industries of the land but it invists on fair play, it insists upon this position but it insists on fair play, it insists upon this position namely, that the power of taxation shall be used for public and not for private purposes, and recognizing the fact that wages are higher in this country than they are in other countries the Jemocratic party propose to legislate with that question it view. I want to read to you a provision of the platform of '87, which shows that the Jemocratic party is not in favor of a reduction of taxahemographic party is not in layer of a reduction of taxa-tion, so that it would injure the wages of a single laboring man. Here it is: "The necessary reduction in the taxa-tion cay and must be effected without depriving the Ameri-can laborer of the ability to compete successfully with foreign labor and without imposing lower rates of duty foreign labor and without imposing lower rates of dots than will be ample to cover any increase in cost of production which may result in catasequence of a higher rate of wages prevailing in this country. There it is, tain, explicit and decisive. The famous bill known as the Mills bill was framed in accordance with that platform; and I repeat now, speaking of that great bill upon which we entered the cammain of '88, that outside of the free list there is not a cannaism of 88, that otheries of the free need in that Millsbill upon which there was not levied a duty sufficient to meet the difference between the cast of labor involved in the production in this country and other countries. In other words, the Democratic party's position is that so far as the difference of wages has gone in the tariff question the as the difference of wages has seen that difference. (Ap-duties shall be sufficient to recognize that difference. (Ap-plause.) We do not believe in subsidies and bounties. I is undemocratic, and we are opposed to them, and in my judgment these provisions ought to be taken from every bill which has been passed by a Republican Congress

We must not expect to run to Congress every time there is a bad crop. We must not expect reflect from every imaginable incident to a great Republic like ours. Let us stand by our old principles of government and not run over to new arm outried things. Let us hold fast to those which have been tested and live un to those old principles. It is not essential who the candidate of the Democratic party may be. The great point is to achieve a victory for Democratic principles in Navembernest. (Applianse.) MR. GILROY AT THE CAPITOL. SAID TO HAVE FOUND OUT THAT THE SOUTH IS

NOT CLAMORING FOR HILL. Washington, March 16 (Special).-Among the arrivals

Washington yesterday were Thomas F. Gilroy and Judge Welde, of New York, who have been sofourning in the south for several weeks. They spent some time to day at the Capitol, where Mr. Gilroy was pointed out to Democratic Representatives as the "Bismarck of Tammany." He received many marks of attention from prominent Democrats who were introduced to him by Bourke Cockran. Wherever "Bismarck" Gilroy went an impression was left that Tammany will not don mourning if the Hill boom shall wane and disap-pear and a Flower boom or a Whitney boom shall take its place. It was whispered that he had returned from the South impressed with the belief not only that there is no real popular demand for Hill's nomination in that region—where all the Democrats want is a candidate who can win—but that there is serious distrust in Hill's ability to carry b's own State.

Mr. Gilroy need not have journeyed further South than Washington to have been impressed with that belief, which is held by a large majority of the South-arn Democrats here. The latter do not set seem in-

that no New-York Democrat can be safely chosen as

clined, however, to take kindly either to Flower or At heart nine-tenths of them are for Gorman, and a still larger proportion of them believe candidate this year. They are therefore not sorry to have a wet blanket thrown on the Hill boom by the "Elsmarck of Tammany," and are so willing and ready to take him at h's word when he says that Hill is no longer "in it," that he must feel sorely disappointed if he does not actually mean what he says but is trying to play a very deep game.

The Cleveland men appear to feel a shade more cheerful than they did a fortnight ago, and some of them are again exhibiting figures to prove that he can be elected even without the electoral vote of New-York. It is rather significant that most of the Demo-cratic estimates of probabilities made here recently are constructed with a view to show that the Democrats can win the Presidency without the electoral vote of New-York

The difference of value between the cotton fibre of the South and the wool into which it is woven, for one season slone, is more than eight hundred millions of dollars! an enormous sum, yet, great as it is, the value to our country of having this industry created for the benefit of the great seems to be a very marked difference between them, as Cleveland advised his friends "to tell the truth." I have heard Hill compared recently, by his office-holding admirers, to Washington, but it is certainly very inappropriate, as Washington never told a lie, and Hill never told the truth.

WHY DR. VAN DYKE PREACHED IN BOSTON

HE GIVES A GUARDED DENIAL OF THE REPORT Boston, March 16 (Special).—On Sunday last the Rev. Dr. Henry van Dyke, paster of the Brick Church, in Fifth ave., New York, preached in the Harvard Church in Brookline, the Rev. Dr. Renen Thomas, of the latter church, preaching for Dr. van Dyke in New-York. It is understood that the exchange of pulpits was made on the suggestion of the Committee on Supply of the Central Congregational Church, Boston, that the mem bers of the committee might have an opportunity of hearing Dr. van Dyke, of whom they had been think-ing in connection with their vacant pastorate. It is said that they were favorably impressed with the eloquent New-Yorker, and it is not improbable that a call may be extended to him, if it has not already been sent.

Dr. van Dyke was seen late last night at his nome, No. 10 West Tairty-ninth-st., after his return from Boston. When asked if he had accepted a call from any Boston church, he said positively that he had not. He declined at first to say whether or not he had received a call to any other church than his own, but upon being pressed, said: "I have opened negotiations with no one regarding a change of pul-

Whereas, Mme. N. G. Felicie has, pursuant to a voluntary promise made by her Sept. 1, 1890, and which went into effect Jan. 1, 1891, established a profit-sharing plan whereby, independent of any wages paid to us weekly, one-half of the annual net profits of the business were to be applied for our benefit; and

were to be applied for our benefit; and
Whereas, On her recent return from Paris she has
loyally carried out said promise by distributing among
us 25 per cent, of the net profits in cash, depositing 20
per cent, more in the Central Trust Company for the

Manhattan Company, New-York, March 14, 1892,—A8 a meeting of the Board of Directors held this day, the following preamble and resolutions were adopted: Whereas, The Providence of God having, on the morning of the 18th first, removed from our midst our beloved associate, Mr. Edgar S. Auchineloss, we desire by a special minute to record our deep sense of the loss we have sustained in one who has been for twelve years identified with this back, both as a director and also at one time its vice-president. He has been one of the most active and intelligent members of the Board from the time he entered it until he was stricken down in November last by the sickness which terminated fatally only yesterday. Though dying comparatively young, he had by his industry, intelligence and toffschild integrity attained a high position in the commanity. As a merchant he was alike enterprising and successful, faithful and conscientious in, the performance of every duty devolving upon him, and his many manify and Christian qualities commanded the uniform respect of all who knew him, in the various walks of life, both social and commercial, in which he moved. A true and warmhearted friend, he will be greatly missed by overy member of this Board, and the high Christian character with which his seeme will ever be identified makes our loss the more severe and our regret the deeper. Resolved, That we tender our cordial and heartful sympathy to his bereaved widow and children, and that a copy of the forecoing premable and resolution, suitably engrossed, and signed by the president and secretory of this Board, be forwarded to them.
